

First Impressions

Year 7 September 2018 share their first impressions of St Mark's, having completed 3 weeks in the school

On my first day, I was really nervous. However, I have met lots of new teachers and they have all been really kind, funny and helpful. (AM Milwards)

My first impression of St Mark's was that it would be a wonderful place for me. I knew I would fit in just fine. The thing I like the most about St Mark's is that everyone is in one big community. (NT The Downs)

My first impression of St Mark's is that they have great food and friendly students. I like the teachers because they help me learn new things that I haven't learnt before. I like my form group because they are all friendly and we help each other in class or at break and lunch. (LY St Luke's)

St Mark's is brilliant! I like that all the children and teachers are really nice and kind. My favourite lessons are PE and Music (KB Holy Cross)

My first few weeks at St Mark's have been great. I love it here. All the lessons are really fun and enjoyable. I have made many new friends. (PK Holy Cross)

My first few days at St Mark's were quite stressful, in a way that coming from primary school to secondary was a massive jump. But I settled in really quickly and now enjoy all my subjects, have made many new friends, and enjoy school life. (JS St Luke's)

I like St Mark's because all the lessons are different and fun. The food at break and lunch blew me away. (EC William Martin)

My favourite subject is probably Tech because it is a very hands-on lesson. All of the other lessons are great as well because of the supportive teachers and teaching methods. The School is great.
(JS St Albans)

I like that all of the staff and pupils are really kind and caring.
(EM The Downs)

I like how nice, kind and helpful the buddies are. I like how easy it was to make new friends. See their interests and personalities and who has the same interests as me. (SL St Albans)

What I like best about St Mark's is that you can make friends really quickly and everyone is really friendly.
(NR Water Lane)

My first impression of St Mark's is exciting because we get to meet new people and finally upgrading from Primary School to Secondary School. You have more classes and subjects to go to.
(YL Hare Street)

teachers have settled me in very nicely. They are great! My favourite subjects are PE and Tech, as we get to do contact rugby in PE, and in Tech we use really cool machines and make cool things out of wood.
(EA Hare Street)

The thing I like best is that you get to learn so many good lessons that will help you to get your dream job.

You also have a variety of sports to do and have a lot of fun doing them.
(MR Harlowbury)
